PROFESSIONAL SUMMARY

I am a college student, who is furthering their education in Communication Studies. I plan to use my education to pursue a career in journalism. I am passionate about investigating, writing, and reporting and want to use my degree to contribute to the field of media. I believe that with journalism I can be in a position that allows me to raise awareness and efficiently inform the public on the many happenings in today's world. To achieve my goals I am actively taking different courses that will enhance and improve not only my writing skills, but my communication skills as well. Alongside journalism I want to become a more efficient researcher and critical thinker. Ultimately I want my work to bring people together and allow society to know and experience healthy commuincation.
